About La Clinica

La Clinica offers wellness focused medical, dental, mental health, and substance use disorder care at 21 sites: six primary health centers, East Medford Dental Clinic, 13 school-based centers, and in a mobile center. Although its mission focuses on providing access to low-income people, La Clinica is open to everyone. La Clinica was founded in 1989 to serve the primary and preventive care needs of migrant and seasonal farm workers in Jackson County. In 2001, in response to an increasing need for affordable primary health, La Clinica expanded its scope to serve every member of the community. All services are offered regardless of a patient's ability to pay, and on a sliding-scale basis for the uninsured and low income.
